## 7.4 Kingdom Donation

You can not only sell your productions to a store owner or peddler, but also you can get better price from a procurement officer. To get better pay and reputations, you have to deliver these items that the officer requested before he gets everything he needs.

### **How should I know which items do they need?**

The officers will give you detailed information about the items' name and quantities by using the Kingdom radio. However, don't forget to take a look at the following tips that you should know before making a deal with these officers.

1. The demand is limited, so you'd better get the items before they ask. Or you won't have enough time to deliver the items in time.
2. The items can be grouped in quantities of 20, 50, and 100. Try to submit as many goods as you can, so that you can sell them for higher value rewards.
3. Each countries has its own warehouse with four procurement officers, so don't forget memorize each place's location and the NPC's name if you had actually been there.
4. The officer can only take over the goods from his citizens. In other words, if your race is a dwarf, you should submit the items he requested to your country's officer, or others will not make any deals with you.
5. The officers can not buy any armors or equipments from you. Also, they will not purchase any normal productions before having sufficient materials.

## 7.5 Work Skill Guild

### Why to join a work skill guild?

In Fairyland, each work skill has its own guild. The benefits of joining a guild are that you can improve your work skill level, obtain all kinds of work skill title, and enhance the possibility of success to gain higher level of productions.

Skill Level	Title	Level up fees
Lv1	Newbie	0
Lv12	Apprentice	1000
Lv24	Disciple	3000
Lv36	Assistant	5000
Lv48	Chief	7000
Lv60	Expert	9000
Lv72	Master	11000
Lv84	Maestro	13000
Lv96	God	15000

Each time you join a new guild, you will gain a new tile, named \_ newbie. Also, according to your work skill level, you will be able to spend some coins to level up your title in the guild. However, you can not join more than 2 guilds in the mean time. Do not click on "Leave Guild" unless you no longer want to belong to this guild. Or you will also forfeit any title best owned by the guild and any guild bonuses you've already earned.

Also, you can erase a work skill you've learned if you don't have enough slots to learn a new skill. However, if you want to get this skill back, you need to start over again.

Please note, NPC's don't provide service to erase 6 basic work skills, because they don't take up any limited slots.

#### 8.1.1 Clan

##### **Apply for a clan**

A player who qualified with 5000 points of fame and level 20 can apply for a clan to “Clan manager” in Rainbow City, Bluebird, Goldberg and Baghdad. Notice: Once you have named for your clan you cannot change its name.

##### **Title for clan members**

The maximum of family member is 30 people in the beginning. Each clan was formed with one Major Leader, three Minor Leaders, and the other family members. For a clan level 2, the max amount of family member is 50 people. For a clan level 4, the max amount is 60 people.

##### **Authorities of a Major Leader:**

1. To invite or to delete a player of a clan. (Notice: Both parties shall be in the same server and location for inviting a new member to join the clan. There is no limitation to delete a member from the clan.)
2. To promote a member to “Minor Leader”. (at most for 3 players)
3. To dismiss the position “Minor Leader” of a member. The major leader shall click “delete” button on the name of Minor leader then his/her position will be dismissed right away. Click “delete” button again then the member will be dismissed from the clan.
4. To transfer the position of Major Leader to the other on-line Minor Leader, you have to apply to “Clan manager”.
5. To disband a clan, you also have to apply to “Clan manager”.
6. To move the entrance of a clan room to the current server.

##### **Authorities of a Minor Leader:**

1. Only invite a player to join the clan.

### **To leave a clan**

If you want to leave a clan, you can ask the major leader to delete your name on family member list. Or you can talk to “Clan manager” and choose the option “Leave a clan”. However, if you are a Minor leader, you have better transfer your position to the other member before you leave a clan.

### **Clan Channel:**

The hot key for clan channel is “Ctrl+3.” You can click “social relationship” button and then click “family” to check the situation of family members. Green signs means the member is online. You can click his/her name to check the server he/she has logged in.

### **Clan Room:**

As your clan was created, the major leader can buy “Clan Honor Card Folder” from Clan manager at 50000 coins. There are 7 cards you have to prepare – Metal slime, Treefrog, Water Slug, Red Puppet, Gopher, Light Beetle, and Evil Vulture. As you collected all the cards, you can bring them to Clan manager to apply for a clan room. Now your clan will be upgraded to level 2. The max member amount shall be 50 people.

You have to notice that the clan room will be located in the city and server the major leader has handed in the Clan Honor Card Folder. However, the major leader has the authority to talk to Clan manager to change the server of clan room.

In order to avoid the wrong use of clan functions, there is an important rule for the clan. As the amount of your family members less than 25 people and the situation still keeping over 72 hours in real time, the clan room will be reclaimed by system.

Let's introduce you the most popular locations to collect beast cards for Clan Honor Card Folder:

- Metal Slime: Slime Maze B2
- Treefrog: Rosen Lake, Frog Swamp  
Note: It's the most difficult card to collect because it's quite hard to meet Treefrog in a battle.
- Water Slug: Rosen Lake, Frog Swamp

- Red Puppet: Northern Caves

Note: You must complete the quest “Animal's Home” then you will be qualified to enter in.

- Gopher: Goldberg Suburbs, Rat Cave B2
- Light Beetle: Western Grassland
- Evil Vulture: Western Grassland

The way to get beast cards is not only to defeat beasts in wild, you can also take the quest “Treasures of Goddess Shiria” and to open the chest then get a beast card in random.

### **Family Bank:**

As your clan is level 2 and your major leader has collected all the cards of Black Hole Card Folder and hand it to Clan manager, your clan will be upgraded to level 3. For a level 3 clan, all the members may get a private bank page (40 bunches) in the chest of clan room. However, for the player who has left the clan, his/her private bank wont' be disappear or deleted. The player can join a new clan which has the function of clan room or go back to the old clan to check his/her private bank page in the chest of clan room. You don't have to worry about your private bank because the system may keep them for you.

Not like Clan Honor Card Folder, Major leader can not purchase Black Hole Card Folder from Clan manager. The only way to get Black Hole Card Folder is to defeat beasts in battles. You just have to remember a rule to get Black Hole Card Folder, i.e. to defeat beasts with “Dark” element. We suggest you the best location is in the middle area of Slime Maze B2. Evil Tiger,

This time you also have to collect 7 beast cards. They are Slime, Wood Eagle, Flaming Pegasus, Black Widow, Light Hedgehog, and Golden Lion. The most popular locations to collect beast cards for Black Hole Card Folder are as below:

Now your clan will be upgraded to level 4 and there will be a Clan trash can turn up in the clan room.

There are total 3 pages of a Clan trash can. Every one of family members can use the Clan trash can to deposit or withdraw items. However, there is just one family member allowed to use the Clan trash can at the same time.

You have to notice that the items or materials you putted into Clan trash can will be no longer belong to you. Do not use the Clan trash can as a bank. By the way, Lager Team will not keep garbage for players or record all the data of garbage putted in Clan trash can.

Major leader has the authority to dump all the garbage of the Clan trash can. Besides, Major leader also can open or close the function of Clan trash can. Once you Major leader closed the function of Clan trash can, you will no be able to withdraw or deposit items in Clan trash can.
